

**June 20th 2014: PRODUCT STATUS NOTIFICATION – LoPro® Basic Wheel Plate Assembly Guide Wheels**

Bishop-Wisecarver Corporation is informing you of the obsolescence and replacement of several assemblies in the LoPro® product line. These life cycle changes are the result of a change in the supply chain of the studded wheel components used to make up the wheel plate assemblies.

BWC is transitioning the DualVee® studded guide wheel product offering away from the SWI series integral studded wheels which will be replaced by the SWS series swaged studded wheels. Please see the Product Status Notification document dated May 3, 2013 for specific SWI to SWS transition information. LoPro® assemblies use the affected DualVee® wheel components.

Upon the depletion of our DualVee® SWI series integral studded wheel inventory the following LoPro® product stock codes will be discontinued or otherwise obsolete:

BWC Product Line	Size	Obsolete Stock Code	Product Description
LoPro®	Size 2	BWP2SWTLBC	Basic Wheel Plate Assembly, Size 2, Integrated Stud, Shielded, Lubricators, Belt/Chain
